

BIOTICS & SOIL AMENDMENTS

BFS W/ CHELATED IRON

The BFS soluble powder plus 2% chelated iron (Iron EDDHA) - soluble humate, seaweed extract, beneficial bacteria, plant vitamins, and iron for deeper color and correction of iron chlorosis. Runs in the hydroseed tank, foliar, or irrigation.

IN PLAIN TERMS

The same soil-life booster as BFS, with chelated iron added - the iron is what deep-greens the grass. It feeds the soil biology and boosts the color at the same time.

COMPOSITION & GUARANTEED ANALYSIS

Type	Soluble biological food substrate + chelated iron
Iron (Fe)	1.20% (chelated iron)
Contains	Soluble humate · seaweed extract · beneficial bacteria · plant vitamins

ADDITIONAL PROPERTIES

Shelf life	Up to 12 months (cool, dry)
Note	Not a plant food. Not compatible with calcium nitrate or pH < 4.0; may stain at high concentration.

APPLICATION & COVERAGE

Applications	Hydroseed tank · foliar · irrigation (200-mesh screen for drip)
--------------	--

PACKAGING

Case size	1.25 lb
-----------	---------

STORAGE & HANDLING

Store cool and dry, out of direct sunlight; keep containers closed when not in use. Follow the current product label for handling and precautions.

Technical data is drawn from the current TurfBlaster® product record and provided for professional reference. Always follow the current product label for application rates and handling. TurfBlaster® is the manufacturer; distributed by **Hydroseed Supply** (hydroseedsupply.com).
