MULCH & FIBER

100% WOOD FIBER HYDROMULCH

100% virgin wood fiber that runs clean in mechanical and hydraulic machines - the one crews reach for first, on lawns, commercial turf, and erosion jobs alike.

IN PLAIN TERMS

The blanket. Fluffy wood fiber you spray over seed as mulch - it holds moisture like a damp towel, shades the seed, and keeps it from washing away or drying out while the grass gets going. The everyday workhorse mulch.
